Profile

Full Stack Developer and React Native specialist with expertise in building scalable mobile and web applications. Proven track record in integrating AI models, optimizing performance, and delivering seamless user experiences across diverse industries including e-commerce, on-demand services, and fintech.

Technical Skills

Mobile & Frontend: React Native, Redux, Expo, React.js, HTML, CSS, Tailwind CSS, GSAP, Bootstrap

Backend & Cloud: Python, Django, Django REST Framework, Ruby on Rails, Firebase, Supabase

Tools & Integrations: Google Maps API, OpenAI/Gemini Integration, Expo Push Notifications, Tanstack Query, Square/Clover Payments SDK, Docker, Git, Postman, Linux

Experience

Weavers Web Solutions Pvt. Ltd.

Kolkata, India

React Native Developer

May 2025 – Present

- Developed a comprehensive **Food Ordering Platform** (Zomato-style) integrating **Google Maps API** for location filtering and **Square/Clover SDKs** for secure payment processing.
- Engineered an **Online Massage Booking Service** for a US-based client, focusing on real-time scheduling and secure user management.
- Built a **Classified App** (OLX-style) for goods trading, utilizing **Supabase** and **Tanstack Query** for high-performance data fetching.
- Integrated **OpenAI and Gemini AI** features to enhance app interactivity and automated content generation.
- Implemented **Expo Push Notifications** and **Firebase** for real-time user engagement and cloud messaging.

Tata Consultancy Services

Kolkata, India

Assistant Software Engineer

August 2022 – March 2025

- Developed and maintained a **CMS-based mobile application**, improving content delivery efficiency for large-scale teams.
- Optimized application performance and responsiveness, leading to a smoother user interface and reduced crash rates.
- Automated repetitive manual infrastructure tasks with Python scripts, improving operational productivity by 25%.

Projects

FocusLoop: Digital Habit Tracker | *React Native, Django REST API*

Developed a habit-tracking app with session analytics and a collaborative community section for social interaction.

Pinterest Clone | *React, Redux, JWT Authentication*

Built a full-featured image-sharing platform with secure authentication and state management via Redux.

Messroom: Hostel Finding App | *Ruby on Rails, Docker*

Created a listing platform for hostels/PGs with dynamic search and filtering; deployed on Render using Docker.

Education

Bhairab Ganguly College

Kolkata, India

Bachelor of Science in Computer Science

2019 – 2022

Achievements

- Qualified for the 2nd round in the IIT Bombay Techfest 2021 Hackathon.
- Scaled a WordPress-based book-selling website to over 1,000 active users.
